GOLD PLAN

*Under our exclusive gold plan, we offer **dividends in the form of pure gold coins**. Every year, multistate banks conduct auctions for gold, where we participate through the expertise and authorization of our **chairman, Dr. Veekkas Mahamuni, who holds a certified bullion license**. This license grants us the legal rights to purchase, refine, and sell gold. We work closely with the **National Indian Bullion Refinery (NIBR)**, one of India's most trusted and technologically advanced bullion refining institutions, ensuring high-quality and ethical sourcing. **The gold is then refined at our own facility, Yash Gold Company, into 24-carat gold coins with 999 purity**, which are distributed to our customers as dividends—offering both value and trust in every coin.*
